PROFILE

Year 2 Information Technology student with a minor in Business, seeking a software engineering internship. Builds full-stack web applications with Node.js, Express and MySQL, and object-oriented applications in Java. Works to a personal rule of having a working build ready seven days before each deadline, leaving a full week for edge-case testing and refinement.

EDUCATION

Singapore Polytechnic · Diploma in Information Technology, Minor in Business — Apr 2025 – 2028 (expected)
GPA 3.49 / 4.00 (Year 1) · Modules: Back-End & Front-End Development, Java & OOP, Database Systems, Web & Mobile Apps

Maris Stella High School · GCE O-Level — 2021 – 2024
L1R5 net 10 · English Language A1, Mathematics A2, Additional Mathematics A2 · Direct School Admission (Robotics)

TECHNICAL SKILLS

Programming	Java, JavaScript, SQL, Python, HTML5, CSS3
Web & data	Node.js, Express, REST APIs, MySQL, JWT and bcrypt auth, Bootstrap 5, Web Components, Java Swing
Testing & tools	Jest, Supertest, Git, GitHub, Microsoft Power BI
Languages	English, Mandarin Chinese

PROJECTS

Pokémon Gym & Battle System · *Node.js, Express, MySQL, JWT, bcrypt*
- Built a full-stack web game on a REST API of 11 resource routes, structured as routes, controllers and SQL models over MySQL.
- Secured sign-up and login with bcrypt password hashing and JWT tokens, chained as Express middleware.
- Wrote a multi-turn battle engine driven by base stats, movesets and type advantages, with a coin shop and badge progression.

RESTful Voting & Survey Web API · *Node.js, Express, MySQL, Jest, Supertest*
- Built Express endpoints for votes and survey submissions, with MySQL queries that aggregate poll results in real time.
- Wrote integration test suites with Jest and Supertest to verify the API routes.

Student Internship Management System · *Java, OOP, Swing*
- Wrote case-insensitive, multi-field search over internship placements and allowances, with regex validation of student IDs.
- Calculated each host company's headcount and average performance score, shown in formatted Swing tables.

Retail Transaction Web App · *JavaScript Web Components, Node.js, Express*
- Served retail records from an Express server to a web-component front end that filters them by category and payment method.

WORK EXPERIENCE

Two Men Bagel House · Line Chef (part-time) — Feb 2025 – Apr 2026
- Kept orders flowing between the kitchen line and front of house during peak service.
- Ran the cash register and barista station for high-volume crowds, balancing speed, order accuracy and quality.

Bee Cheng Hiang · Barbecue Cook (part-time) — Nov 2024 – Feb 2025
- Ran a cooking station independently through the festive peak season, meeting quality and food-safety standards.
- Shortened customer queues by sequencing orders ahead of demand, and cleared kitchen bottlenecks with service staff.

LEADERSHIP & COMMUNITY

Marist Ambassador · Maris Stella High School — 2021 – 2024
- Emceed the 2023 year-end prize-giving ceremony, presented at morning assemblies and guided visitors at Open Houses.

Marist Robotics & Programming Club · Member — 2021 – 2024
- Mentored juniors in programming; represented the school at the international Perse Coding Team Challenge (2022, 2023).

Class Vice-Chairman · Secondary 4 | **Peer Supporter** · Secondary 2 — 2022, 2024

Community Service — 2022 – 2025
- Volunteer with Mummy Yummy (2023–2025), running registration for community events of 100+ participants.
- Recycling drive with startup Magorium (2023), Ramadan volunteering at Masjid Kassim (2024), St Theresa's Home hampers.

AWARDS

- **Edusave Character Award** (2024), Ministry of Education and People's Association, for exemplary character
- **Merit Award**, Perse Coding Team Challenge, International (2023)
